1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas J. Brindisi on 7/20/05.

The application has been amended as follows:

Claim 11, in line 15, the word [low] has been replaced with the phrase --at said low voltage state during the entire period of current modulation based talkback--.

Claim 11, in line 17, the [;] has been deleted because it appears to be a typographical error before the ".".

Claim 16, in line 11, the word [low] has been replaced with the phrase --at said low voltage state during the entire period of current modulation based talkback--.

2. The following is an examiner's statement of reasons for allowance: the prior art of record all failed to show either alone and/or in combination a talkback system for master and slave devices wherein the voltage is held at the low voltage state for the entire period of current modulation based talkback.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
